

Elias Mjøen

SOFTWARE DEVELOPER & UI/UX DESGINER

CAREER

BSc in Computer Science (Spec. in design & management)

University of Applied Sciences and Art North-western Switzerland FHNW School of Engineering (09/2019 - 03/2023)

During my seven semesters at FHNW I enhanced my skills as a software engineer, designer, and programmer and was able to participate in projects like:

- Creation of lead management application for Allianz Suisse (React front-end & Spring Boot API)
- Research for and Development of a CyberSec info-website (React)
- Research for and Development of a general model for scheduling problems (Bachelor's thesis) (C# .NET 6 & Gurobi Optimizer)

Software Engineer (C# .NET WPF)

Mammut Soft Computing AG (08/2017 - 12/2018)

First as Intern and then as fulltime employee I worked as a .NET developer, building small desktop (and web) applications.

EFZ Application Developer & BM (commerce)

Old Cantonal School Aarau & BBBaden (08/2014 - 06/2018)

I took my first step into the world of computer science after mandatory school was a program called IMS (Informatikmittelschule) where I learned a lot of fundamentals in subjects like:

- HTML, CSS, JS
- OOP (Java, C#)
- Databases (SQL)
- Software engineering (Requirements, Project management)
- Computer Systems (Binary/Hex, Networks, History)

I also completed the following language diplomas:

- English: Cambridge CAE (C1 - completed at C2 level)
- French: Delf B2

Mandatory Education (Bez. Diploma)

Kreisschule Kestenberg (08/2017 - 12/2018)

After going to primary school I was submitted to the highest middle school track (Bezirksschule).

ABOUT ME

I was born on the 5th of August 1998 to a norwegian father and swiss mother. I enjoyed a safe and happy childhood, which I largely spent outside playing football with friends or running around my neighbourhood and the nearby forest. I have always been technically inclined and was naturally fascinated when my father introduced me to the world of computers. It was clear to me even then, that I would want to work with computers when I grew up. Fast forward some twenty years and here we are. My hobbies today include Esports, board- and card-games, snowboarding, fitness, and spending time with friends.
